TUESDAY, 12.09.2023

13:15 – 13:30 Welcome address

13:30 – 15:00 Angelo Arleo
Finding our way in the longevity space: Visuo-spatial cognition in patient-centric studies

15:00 – 15:30 Coffee break

15:30 – 16:30 Stephen Ramanoeil
Age-related differences in the cerebral bases of visuo-spatial processing for spatial navigation

16:30 – 17:30 Stavros Skouras
Interim results from a Norwegian randomized controlled trial investigating the effects of music therapy and physiotherapy on participants with memory deficits

18:00 – 19:00 Wine tasting
Domaine Bovy

19:30 – 21:00 Dinner

POSTERS

Pauline Berthouzoz
Comparing eye fixations during pictorial recall in older and younger adults

Burcu Demiray
The relation between older adults’ cognitive abilities in the lab and length of natural speech in everyday life

Maximilian Haas
Investigating postural stability as an indicator of cognitive load in prospective memory

Gianvito Laera
Mind the time: a project on aging and neural processes of time-based prospective memory, time perception, and meta-cognition

Melanie Mack
Effects of piano playing training on cognitive flexibility in healthy older adults: Results of a randomized controlled trial

Tabea Meier
Evaluating language markers of well-being in healthy aging narratives

Maria Nygaard
Prospective memory errors and strategy use in aging – A qualitative approach

Chiara Scarampi
Intention offloading and aging: A neurocognitive investigation

Enrico Sella
Memory training interventions targeting metacognition in older adults: A systematic review and meta-analysis

Maud Wieczorek
Cognitive functioning and internet use amid the COVID-19 pandemic: Evidence among a population-based sample of older adults living in Switzerland

WEDNESDAY, 13.09.2023

09:00 – 10:30 Dayna Tournon
Subjective age in daily life

10:30 – 11:00 Coffee break

11:00 – 12:00 Emilie Joly-Burra
The MEMMOS study - Does training memory and metacognitive strategies improve older adults' prospective memory and everyday goal achievement?

12:00 – 13:30 Lunch

13:30 – 14:30 Francesco Pupillo
Deficits in metacognitive efficiency in late adulthood are related to distinct brain profiles

14:30 – 15:30 Robert Reinecke
The relationship between subjective and objective memory performance with health literacy: Evidence from a national survey of older adults in Switzerland

15:30 – 16:00 Coffee break

16:00 – 17:30 Patrick Lemaire
Aging, emotion, and cognition

17:30 – 19:00 Poster session

19:00 – 20:30 Dinner
from 21:00 Social event
Visit to Vevey

THURSDAY, 14.09.2023

09:00 – 10:00 Beatrice Kuhlmann
The benefits of sleep to older adults’ source memory

10:00 – 11:00 Neele H. Heiser
Interview dynamics: How the age of the examiner shapes older adults’ self-perception

11:00 – 11:30 Coffee break

11:30 – 12:30 Marta Menéndez Granda and Nadine Schmidt
Prospective memory and the ageing brain: An update on current projects

12:30 – 14:00 Lunch
from 14:00 Farewell
